QUEST MARINE LLC

Quest (Pursuit) of Maritime excellence is the seed that has been planted by “Quest Marine LLC, Dubai” in the oasis of the maritime industry. Quest Marine is a registered Marine Consultancy service provider, established with a view to eulogies the phrase.

“Maritime.... Anytime”

The management of Quest Marine LLC, - Dubai derives strength from its vast experience of being associated with the marine world for over thirty years. We also boast of a formidable networking ability, with industry peers, in various regions of the world, including the local market of the United Arab Emirates.

Mission Statement / Vision:

The services offered by Quest Marine LLC Dubai, is emboldened by the mission statement of “Providing Quality service, in tandem with the best industry standards, at a fair and reasonably packaged professional charge”.

Converting our vision into a reality has been an ongoing pursuit within the annals of the Quest Marine team’s think tank.

Quest Marine LLC, Dubai aims to identify Client requirements and mobilize the best resources to provide a proactive solution. With a view to enhance our capability and performance, we would be constantly endeavouring to upgrade our potential, both in terms of network offices and strengthening of in-house competency. Our Quality Objectives and Quality Manual have been carefully drafted to convert this vision into a reality. Quest Marine LLC is an ISO 9001-2008 accredited Company, issued by the ABS (American Bureau of Shipping) certifying Authority.

Quest Marine LLC, Dubai consists of a team of professionals with a mission statement to provide its clients with an excellent service and follow through. For our team of professionals, excellence is a trophy, won by training and habituation and empowered with the right attitude.

We carry a Professional Indemnity cover up to 5,000,000 USD (Five Million) and are protected legally by the Third Party Liability cover with the limit of indemnity up to 1,000,000 USD (One Million), for all our staff.

QUEST MARINE LLC

Our Services:

The scope of assistance that Quest Marine LLC - Dubai extends & coordinates (through “in house” or “associated ” professionals) include, but are not limited to, the below services:

⌘ Risk Assessment on behalf of Owners and/or Underwriters

Before you can manage risks you need to identify them and ascertain how big they are. The marine industry have risks attached to every facet of its operations, regardless whether on shore or afloat.

At Quest Marine, we can provide our clients (Underwriters, Facility Owners, Ship Owners and Vessel Managers) with a comprehensive assessment of their operational risks and measures they can implement to mitigate the risks, in line with the requirements of the ISM and ISO Codes.

⌘ Consultancy to Fleet Owners on Claim matters.

From time to time, all ship owners and operators have to handle matters concerned with insurance claims, as either a claimant or defendant. With our experience in dealing with local or international claims, we can supervise and manage all aspects of marine insurance, on an individual project basis or a longer term consultancy basis.

⌘ Vessel inspections on behalf of Owners and/or Underwriters.

Physical inspections of vessels and machinery to ascertain their compliance with the statutory rules, regulations and standard marine practices. Issuance of reports with recommendations, which can assist the client in a decision making process with regards to procurements, repairs, maintenance, insurance and value assessment.

QUEST MARINE LLC

⌘ **Render assistance in Salvaging Distressed Vessels.**

Quest Marine (LLC) - Dubai, has the capability to mobilise specialised personnel with considerable experience in attending marine casualties in a consulting or surveying capacity. Our resources are accustomed to managing fast moving and developing situations, and provide top quality crisis management. Our on-site leadership can allow employees to remain focused on their own responsibilities simultaneously supporting the response effort, at hand.

Our scope of work in salvage and wreck removal includes:

1. Provision of preliminary advice on salvage feasibility and methodology to mitigate and minimise loss and prevent or minimise pollution.
2. Invitations to tender for wreck removal, bid evaluation and technical advice on contracts.
3. Co-ordination and/or management of salvage operations.
4. Monitoring and assessment of strength and stability during salvage or wreck removal operations.
5. Mobilisation of Pollution prevention and control mechanism.
6. Mobilisation of lightering operations.
7. Mobilisation of Bunker and cargo removal operations.

⌘ **Ship Management and Operations.**

Our goal is to provide, a well-coordinated and efficient ship management capability. Our personnel can advise Owners, Charterers, Shippers or Receivers on all aspects of problems or disputes arising from their marine operations. Our range of services include:-

1. Technical support.
2. Operation.
3. Maintenance and Repair.
4. ISM compliance/ Safety and Quality Assurance.
5. Maintenance of store.
6. Stores purchase assistance.

QUEST MARINE LLC

⌘ **Damage investigation of Ship, Machinery and Cargo.**

We, on behalf of Underwriters, Owners, Charterers or other Third Party Principals, provide a comprehensive response to all types of casualties. Whether it is investigation of damages to ship, machinery and cargo, to determine possible cause and/or extent of any damage and also to assist in mitigating further losses. We gather the facts, provide timely advices, and where instructed, provide on-site instructions and guidance on behalf of our instructing client. We can also work with all parties to prepare detailed damage report and assist in developing repair specifications. Additionally, we can provide oversight of damage repairs, and review repair accounts, whilst representing the best interests of our client.

⌘ **Marine Warranty Survey.**

Quest Marine LLC acts as Marine Warranty Surveyor either on behalf of underwriters and their assureds, or for self-insured clients. Our marine surveyors have experience in every possible marine environment, including single voyage approvals, to ensure that risks are minimised.

A Marine Warranty Surveyor (MWS) provides independent third-party review and approval of high value and/or high risk marine construction and transportation projects, from the planning to the execution stages.

To help our clients understand Marine Warranty Survey (MWS) requirements, we have our own Guidelines for such assignment.

In every case, client will benefit from a consistently well-researched, quality-assured approach, and advice on measures to mitigate and minimise risk. To provide operators and contractors with independent verification of procedures, we review technical documentation and undertake on-site inspections. We take pride in offering the highest technical standards of work, and that we communicate our findings and recommendations effectively.

⌘ Project Management for New Builds and Conversions.

Any marine project requires the experience, knowledge and expertise that we offer to assist towards a successful outcome. Our project management team can advise on new build, conversion or repairs. From the initial discussions and project start-up through to project planning, contract negotiations, plan approval, site supervision up to the trials and the handover. We along with our associate Naval Architects can provide technical consultancy and supervisory personnel to manage each project, as the Owner's representative and/or Project manager.

➤ New Building

QUEST MARINE LLC

⌘ Yachts Maintenance

The maintenance of yachts is important and we do realise that the following aspects depend on proper maintenance.

- Safety of your yacht at sea
- Resale value of your yacht

Our team have the right people to take care of the maintenance of the client's yacht. Our aim is to make life easy for the owners, by letting us take care of all the burdensome details relating to the general maintenance of client's yacht.

Our weekly and monthly schedules will ensure that the regular preventive maintenance on boats reduces the chance of major problems and our staff will keep an eye on your vessel regularly.

Our services can be tailored to meet the specific requirements of any project, from new builds to repairs and refurbishment. As the Owner's Representatives and Project Managers for your yacht, the QUEST MARINE LLC Team will review every detail of the project to ensure that all quality standards are complied with, including Class and Flag requirements.

The above services are provided by understanding the customer requirements and expectations. We have adopted a Quality Policy that supports our in-house Quality Management System, which enables us to constantly monitor our team's performances and allows us to implement the appropriate actions to preserve a high level of Quality of service, in order to achieve the customer satisfaction.

It gives us immense pleasure to state that we are an ISO 9001-2008 certified company under the prestigious ABS banner.

Quest Marine LLC, Dubai consists of a team of professionals with a mission statement to provide its clients with an excellent service and follow through.

For our team of professionals, excellence is a trophy, won by training and habituation and empowered with the right attitude.
